## **Team Members**

Name	Index No	Allocated work
W.S.D. Fernando	170168K	Mechanics and hardwork
G. Gajanan	170170J	
D.M.D.P. Dissanayake	170147V	Programming the PIC micro controller
D.M.A.I.Divisekara	170150A	PCB designs

## WEEKLY PLAN

Task		Week one							Week two								
		15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30
Making the schematic diagrams	Sensors																
	Motor controllers																
	Micro controller and power supply																
Designing the enclosure using solid works																	
Making the layouts of the pcb	Sensors																
	Motor controllers																
	Micro controller and power supply																
Programming PIC																	
Making PCBs	Sensors																
	Motor controllers																
	Micro controller and power supply																
Testing the PCBs	Sensors																
	Motor controllers																
	Micro controller and power supply																
Making enclosure																	
Assembling Components																	
Testing
